Population Growth 2010-2018

WHY MERIDIAN?

Old Town Lofts benefits from the vibrant economy and booming real estate market of Meridian, as well as the greater Boise metropolitan area known as The Treasure Valley. Lifestyle, family oriented values, thriving business culture, and the boundless recreational opportunities of Idaho are all reasons that people are moving here in droves. Please see the following information to help tell the incredible story of our uniquely wonderful Valley, sourced from the Boise Valley Economic Partnership. Old Town Lofts is an amazing opportunity to participate in our thriving market.

730K

Population Growth

Over 730,000 people live in the Boise Metro and we're welcoming more every day. In fact, we're the second-fastest growing metro in the nation* with a population growing three times faster than the national average.

This rapid growth — both from in-migration, and retention — is fueled by the draw of recreational and cultural amenities occurring simultaneously with the economic pull of strong jobs.

93% of the migration is arriving from outside of Idaho

Net Migration

Net migration measures the migration both into and out-of the Boise Metro. The Boise Metro has the fastest net migration rate of any US Metro* outside of Florida. Ninety-three percent of the migration, on net, is arriving from outside of Idaho. Of these out-of-state movers, over 60 percent, on net, are made up of people under 50 years old, and **one in three new residents, on net, is between 20 and 49 years old.**
